

Manual testing:

User Story #1: **As a user, I would like to be able to see my pronouns on my profile page, and know which fields can and can't be edited.**

Description	Expected Result	Actual Result	Pass/Fail	Comments
User creates account	User sees a label that says their username cannot be modified after creation	User sees "Choose wisely - this can't be changed later!" above the username field	PASS	No issues
User is on their profile	User sees their selected pronouns	User sees all of their pronouns	PASS	No issues
User is editing their profile	User is notified that their username cannot be edited	User sees (cannot be changed) next to their username and cannot edit that field	PASS	No issues

User Story #2 **As a reader, I would like to view the information page of a given book.**

Description	Expected Result	Actual Result	Pass/Fail	Comments
User clicks on a book	User sees book title, author, page count, chapter count, summary, genre, and cover	User sees book cover, name, author. User cannot see page count, chapter count, summary, or genre.	FAIL	Team contacted - sofia is patching
User scrolls	User can see status	User sees status, but status does not update accurately	PASS	Status does not update accurately- this is currently being worked on
User sees a long summary	Summary is collapsible/expandable	User does not see summary unless they go to the threads.	FAIL	Will discuss with team

User Story #3 **As a moderator/team member, I would like to add images of book covers for display**

Description	Expected Result	Actual Result	Pass/Fail	Comments
-------------	-----------------	---------------	-----------	----------

Click on a book page	The correct cover image renders	The correct cover image renders	PASS	No notes
Scroll through profile	All correct cover images render	Correct cover images render	PASS	No notes
Click on a book page that doesn't have a cover	Defaults to "cover not available"		N/A	Database does not include books without covers

User Story #4 As a user, I would like to be able to upload an image for my profile

Description	Expected Result	Actual Result	Pass/Fail	Comments
Go to edit profile	See option to change profile picture	No option to edit picture	FAIL	To be implemented in sprint 3
User selects image from their device	Image validated for type and uploaded if correct	No option to edit picture so no ability to upload picture	FAIL	To be implemented in sprint 3
User does not have a profile pic	Show default avatar image of Prof. Turkstra	Image of Prof. Turkstra appears when user does not have a pfp	PASS	No notes

User Story #5 As a user, I would like to be able to make changes to my profile, including changing my bio, pronouns, account info, and preferred pronouns

Description	Expected Result	Actual Result	Pass/Fail	Comments
Click on edit profile page	Current info pre-filled and editable	Current info populates and is editable.	PASS	No notes
Change any field (valid input)	Changes are reflected in profile upon exiting the edit page	Any field that is changed will update.	PASS	Email does not show up on the profile page, but that is as intended.
Change any field (invalid input)	Display error message and change nothing	An invalid email will give a dialog box and force user to put in valid input.	PASS	Only email has possible invalid inputs.

User Story #7 **As a reader, I would like to view forums that correspond to each chapter of the book I am reading**

Description	Expected Result	Actual Result	Pass/Fail	Comments
User clicks “chapters” section of book	“Chapters” section appears with links to corresponding forums	Table of Contents appears with sections for forums	PASS	No notes
User clicks chapter’s discussion link	App goes to forum screen and displays the forum	App goes to the forum for that chapter	PASS	No notes
User clicks chapters but there are no chapters	No chapters shown	Difficult to test because no books have 0 chapters	N/A	Book would always have at least one chapter/section.

User Story #8 **As a reader, I would like to bookmark chapters and return to my bookmarked chapters in the forum**

Description	Expected Result	Actual Result	Pass/Fail	Comments
User opens up book forum	User sees list of chapters in the book	User sees list of chapters	PASS	No notes
User has finished a chapter and checks it off	Chapter checks off in the UI and stays checked off	Chapter checkbox functions as expected	PASS	No notes
User opens a book forum	User sees forum starting from their most recently checked off chapter	Chapters stay in numerical order when checked off	FAIL	Team has been made aware

User Story #9 **As a reader, I would like to make comments and subcomments under a chapter forum**

Description	Expected Result	Actual Result	Pass/Fail	Comments
Reader opens a chapter	Comments render in	Comments render	PASS	Limited sample data, to

forum	the right order and are collapsible	correctly		be fixed next sprint
Reader posts comment	Comment successfully persists to database	Reader can successfully comment	PASS	No notes
Reader is writing comment	Comment text shows up in a separate box until comment is posted	Comment shows up in text box until posted	PASS	No notes
Reader refreshes page	New comments load correctly	Comments populate and post correctly	PASS	Limited sample data- multiple users to be implemented next sprint
Reader scrolls to see more comments	Scrolling continues without any gaps	Scrolling is continuous	PASS	No notes

User Story #13 **As a reader, I would like to see my book clubs reflected on my profile.**

Description	Expected Result	Actual Result	Pass/Fail	Comments
User navigates to active LitClubs	User sees all LitClubs they are a part of	LitClub that the user is a part of appear under "My LitClubs"	PASS	No notes
User leaves a LitClub	LitClub no longer shows up under the "Active LitClubs" section	User can delete a LitClub and it no longer shows up in My LitClubs or Active LitClubs	PASS	Leaving is difficult to test without join functionality. Currently equivalent functionality to deleting the LitClub/
User scrolls to bottom of a LitClub	User sees a list of the names of those in the club	User IDs populate along with circles at the bottom.	PASS	User IDs, usernames, and first/last names conflated

User Story #14 **As a user, I would like to see my status as a member displayed on a book club page, and I would like to be able to join or leave book clubs at will.**

Description	Expected Result	Actual Result	Pass/Fail	Comments
-------------	-----------------	---------------	-----------	----------

User scrolls to bottom of LitClub	User sees a marker of their profile if they are a member of that LitClub	User sees a marker with their user ID at the bottom of the LitClub page	PASS	User IDs, usernames, and first/last names conflated
User is on LitClub page	Button appears for user to leave/join club	Button appears for the leader of the club to delete the club	PASS	Difficult to test because of limited users. Delete functionality works as intended.
User clicks “leave club” button while currently a member	Dialogue box appears asking for confirmation before leaving the club	Dialogue box appears for the leader of the club to delete the club and confirm/deny works as expected	PASS	Difficult to test because of limited users. Delete functionality works as intended.
User clicks “join LitClub” button while not a member	Dialog box appears stating they have successfully joined the club	“Join club” button does not appear	FAIL	Join clubs not implemented yet due to limited users

User Story #15 **As a reader, I would like to add books to my Top 3.**

Description	Expected Result	Actual Result	Pass/Fail	Comments
User clicks top3 button	Book is either added to or removed from their top3 in their profile page	Top3 button does not appear	FAIL	Team is aware and is still finalizing top3 functionality

Backend Testing:

After a team discussion, we decided to replace unit testing with individual backend endpoint testing, which is documented below.

Backend test cases tested using SwaggerUI and formatted with help of ChatGPT.

User Story #6: As a reader, I would like to select books to place on my bookshelf in a specified booklist (such as Currently Reading, Past Reads, and Future Reads)

Endpoint:

/libraries/{userId}/libraryBooks/{libraryBookId}

Prerequisites:

A valid user with userId = "user-1" exists

A valid owner with ownerId = "owner-1" exists

A valid libraryBook with libraryBookId = "libraryBook-1" exists and is associated with owner-1

Retrieve a library book successfully **Request URI:**

libraries/user-1/libraryBooks/libraryBook-1

Request body:

```
{ "ownerId": "1", "userId": "1" }
```

Response:

Status: 200 OK

```
{  
  "status": 0,  
  "startedReading": "2025-11-07",  
  "finishedReading": "2025-11-07",  
  "currentPage": 0,  
  "percentComplete": 0,  
  "onPedestal": true  
}
```

Library book does not exist **Request URI:**

libraries/user-1/libraryBooks/libraryBook-dne

Request body:

```
{ "ownerId": "owner-1", "userId": "user-1" }
```

Response:

Status: 404 Not Found

```
{  
  "type": "https://tools.ietf.org/html/rfc9110#section-15.5.5",  
  "title": "Not Found",  
}
```

```
"status": 404,  
"traceId": "00-8fbe273d12ae458346bf7f072f5d3bd-b9a47d58344723e3-00"  
}
```

User not authorized to access this library book 

Request URI:

libraries/user-unauthorized/libraryBooks/libraryBook-1

Request body:

```
{ "ownerId": "owner-1", "userId": "user-unauthorized" }
```

Response:

Status: 403 Forbidden

```
{  
  "type": "https://tools.ietf.org/html/rfc9110#section-15.5.4",  
  "title": "Forbidden",  
  "status": 403,  
  "traceId": "00-9ac1287d12ae458346bf7f072f5d3bd-efc84d68655623e3-00"  
}
```

Change library book status from 0 → 1 

Request URI:

libraries/user-1/libraryBooks/libraryBook-1

Request body:

```
{  
  "ownerId": "owner-1",  
  "userId": "user-1",  
  "status": 1  
}
```

Response:

Status: 200 OK

```
{  
  "status": 1,  
  "startedReading": "2025-11-07",  
  "finishedReading": "2025-11-07",  
  "currentPage": 0,  
  "percentComplete": 0,  
  "onPedestal": true  
}
```

User Story #10: As a user, I would like to have the ability to upvote/like comments I agree with

Endpoint:

- /threads/{threadId}/comments/{commentId}/vote

Prerequisites: ← read the comment

- A valid thread with threadId = "thread-1" exists
- A valid comment with commentId = "comment-1" associated with "thread-1" exists with a score of 22
- A valid user with userId = "1" exists

1. Upvote a comment

Request URI:

- threads/thread-1/comments/comment-1/vote

Request body:

- { "userId": johngreen, "vote": 1 }

Response:

- Status: 200 OK
- { "commentId": "comment-1", "score": 23, "userVote": 1 }

2. Downvote a comment

Request URI:

- threads/thread-1/comments/comment-1/vote

Request body:

- { "userId": johngreen, "vote": -1 }

Response:

- Status: 200 OK
- { "commentId": "comment-1", "score": 21, "userVote": 1 }

3. Undo a vote on a comment

Request URI:

- threads/thread-1/comments/comment-1/vote

Request body:

- { "userId": johngreen, "vote": -1 }

Response:

- Status: 200 OK
- { "commentId": "comment-1", "score": 22, "userVote": 0 }

4. The thread or comment does not exist 

Request URI:

- threads/thread-dne/comments/comment-dne/vote

Request body:

- { "userId": "johngreen", "vote": 1 }

Response:

- Status: 404 Not Found
- {
 "type": "https://tools.ietf.org/html/rfc9110#section-15.5.5",
 "title": "Not Found",
 "status": 404,
 "traceId":
 "00-1a51279d09ae458346bfb7f072f5d3bd-d7c84d68655623e3-00"
}

User Story #11: As a reader, I would like to be able to form, name, and provide a description for a book club.

Endpoint:

/litclubs

Prerequisites:

A valid user with ownerId = "user-1" exists

A valid library with libraryId = "library-1" exists

Create a new litclub successfully 

Request URI:

litclubs

Request body:

```
{
  "name": "Autumn Readers",
  "ownerUserId": "user-1",
  "description": "A cozy club for fans of classic literature and tea.",
  "preferredGenres": ["Classics", "Romance"],
  "privateClub": true,
  "memberUserIds": ["user-1", "user-2"],
  "libraryId": "library-1"
}
```

Response:

Status: 201 Created

```
{
  "id": "litclub-1",
  "name": "Autumn Readers",
  "ownerUserId": "user-1",
  "description": "A cozy club for fans of classic literature and tea.",
  "preferredGenres": ["Classics", "Romance"],
  "privateClub": true,
  "memberUserIds": ["user-1", "user-2"],
  "libraryId": "library-1",
  "created": "2025-11-07T16:44:41.378Z"
}
```

Attempt to create a litclub without a name 

Request URI:

litclubs

Request body:

```
{
  "name": "",
  "ownerUserId": "user-1",
  "description": "Missing name test case.",
  "preferredGenres": ["Mystery"],
  "privateClub": false,
  "memberUserIds": ["user-1"],
  "libraryId": "library-1"
}
```

Response:**Status: 400 Bad Request**

```
{
  "type": "https://tools.ietf.org/html/rfc9110#section-15.5.1",
  "title": "Bad Request",
  "status": 400,
  "detail": "Litclub name is required.",
  "traceId": "00-81b3279d12ae458346bfb7f072f5d3bd-b9a47d58344723e3-00"
}
```

Attempt to create a litclub with an invalid ownerUserId **Request URI:**

litclubs

Request body:

```
{
  "name": "Ghost Club",
  "ownerUserId": "user-dne",
  "description": "An invalid owner test case.",
  "preferredGenres": ["Horror"],
  "privateClub": false,
  "memberUserIds": ["user-2"],
  "libraryId": "library-1"
}
```

Response:**Status: 404 Not Found**

```
{
  "type": "https://tools.ietf.org/html/rfc9110#section-15.5.5",
  "title": "Not Found",
  "status": 404,
  "detail": "Owner user not found.",
  "traceId": "00-93c1287d12ae458346bfb7f072f5d3bd-efc84d68655623e3-00"
}
```

User Story #12: **As a book club member, I would like to view past books and future books that book clubs have read and plan to read**

Endpoint:

/libraries/{ownerId}/libraryBooks/{libraryBookId}

Prerequisites:

A valid owner with ownerId = "owner-1" exists

A valid libraryBook with libraryBookId = "libraryBook-1" exists and is associated with owner-1

Books may have varying status values representing reading state

Retrieve a currently reading library book (status = 0)

Request URI:

libraries/owner-1/libraryBooks/libraryBook-1

Request body:

```
{ "ownerId": "owner-1" }
```

Response:

Status: 200 OK

```
{  
  "status": 0,  
  "startedReading": "2025-11-07",  
  "finishedReading": "2025-11-07",  
  "currentPage": 123,  
  "percentComplete": 50,  
  "onPedastal": true  
}
```

Retrieve a completed library book (status = 2 → “past read”)

Request URI:

libraries/owner-1/libraryBooks/libraryBook-2

Request body:

```
{ "ownerId": "owner-1" }
```

Response:

Status: 200 OK

```
{  
  "status": 2,  
  "startedReading": "2025-10-01",  
  "finishedReading": "2025-10-20",  
  "currentPage": 350,  
  "percentComplete": 100,  
  "onPedastal": false  
}
```

**Retrieve a planned library book (status = 3 → “future read”) **

Request URI:

libraries/owner-1/libraryBooks/libraryBook-3

Request body:

```
{ "ownerId": "owner-1" }
```

Response:

Status: 200 OK

```
{  
  "status": 3,  
  "startedReading": null,  
  "finishedReading": null,  
  "currentPage": 0,  
  "percentComplete": 0,  
  "onPedastal": false  
}
```

**Library book does not exist **

Request URI:

libraries/owner-1/libraryBooks/libraryBook-dne

Request body:

```
{ "ownerId": "owner-1" }
```

Response:

Status: 404 Not Found

```
{  
  "type": "https://tools.ietf.org/html/rfc9110#section-15.5.5",  
  "title": "Not Found",  
  "status": 404,  
  "traceId": "00-72b8279d12ae458346bfb7f072f5d3bd-a6d93e58344723e3-00"  
}
```

User Story #15: As a reader, I would like to add books to my Top 3.

Endpoint:

/libraries/{userId}/libraryBooks/{libraryBookId}

Prerequisites:

A valid user with userId = "user-1" exists

A valid owner with ownerId = "owner-1" exists

A valid libraryBook with libraryBookId = "libraryBook-1" exists and is associated with owner-1

Change library book onPedastal attribute from true → false 

Request URI:

libraries/user-1/libraryBooks/libraryBook-1

Request body:

```
{  
  "ownerId": "owner-1",  
  "userId": "user-1",  
  "onPedastal": false  
}
```

Response:

Status: 200 OK

```
{  
  "status": 0,  
  "startedReading": "2025-11-07",  
  "finishedReading": "2025-11-07",  
  "currentPage": 0,  
  "percentComplete": 0,  
  "onPedastal": false  
}
```
